ABOUT

Results-driven Mobile Application Developer specializing in Flutter, with a portfolio of 15+ published apps serving thousands of daily users. Transform business requirements into elegant, high-performance mobile solutions using Clean Architecture and industry best practices. Expertise spans full development lifecycle—from architecture design and API integration to Play Store/App Store deployment and performance optimization.

EDUCATION

2014 – 2018
Assiut, Egypt

Faculty of Computers and Information / Assiut University, IS Department

- Specialized in Software Engineering and Database Management
- Graduated with a strong foundation in OOP, Data Structures, and Algorithms
- Completed graduation project on Salfny.

WORK EXPERIENCE

05/2023 – present
Dubai, UAE

KBT, Mobile app developer (remotely)

- Developed 5+ Flutter applications for UAE clients with 50K+ active users.
- Applied Clean Architecture and Bloc pattern for maintainable code.
- Integrated Firebase services (Auth, Firestore, Push Notifications, Crashlytics).
- Implemented multi-language support and deep linking features.
- Reduced app crashes and achieved a 99.5% crash-free rate.

08/2021 – present

Freelancer, Mobile app developer

- Published 10+ Flutter apps on Play Store and App Store with 100K+ downloads.
- Built offline-first solutions using Hive and Isar for large datasets.
- Integrated payment gateways (Stripe, PayPal) with secure transactions.
- Optimized app performance and reduced load time by 40%.

01/2020 – 05/2023
Qena, Egypt

AppCubes, Mobile app developer

- Built 8+ mobile apps using Flutter and Cordova.
- Integrated REST APIs and third-party services.

- Reduced app crashes by 25% through optimization and testing.
- Worked with Agile team and established CI/CD pipelines
- Conducted code reviews and mentored junior developers

TECHNICAL SKILLS

Mobile Development: -Flutter - Dart - Provider - Bloc - Cubit - State Management

Architecture & Patterns: -Clean Architecture - MVC - MVVM- SOLID Principles - Design Patterns - OOP

Testing & CI/CD: -Unit Testing - Widget Testing - Integration Testing - Flutter Test - GitHub Actions - CI/CD pipelines

Backend & APIs: -REST APIs - GraphQL (basic) - Laravel - PHP

Databases: -SQLite - Hive - Isar - MySQL

DevOps & Tools: -Git - GitHub/GitLab - Firebase (Auth, Firestore, Messaging, Crashlytics) - App Links & Deep Linking - Payment Integration - Push Notifications - Localization

Web: -HTML - CSS, - JavaScript - jQuery - Bootstrap - Cordova - Framework7

LANGUAGES

Arabic

Native

English

Professional Working Proficiency

SOFT SKILLS

- **Problem-solving & Critical Thinking:** Proven ability to debug complex issues and optimize app performance under pressure
- **Cross-functional Collaboration:** Experienced in Agile/Scrum environments with remote teams across UAE and Egypt
- **Adaptability & Fast Learning:** Quick to master new technologies and frameworks to meet evolving project requirements
- **Communication:** Clear technical documentation and effective coordination with clients, designers, and backend teams
- **Time Management:** Successfully delivered 15+ apps while managing multiple freelance projects simultaneously
- **Attention to Detail:** Maintained high code quality standards through thorough testing and code reviews

PROJECTS

Holly Quran App, <https://play.google.com/store/apps/details?id=net.quran.holly> ↗

Comprehensive Islamic application featuring the complete Quran with interpretations, daily supplications, Fortress of the Muslim, and Prophet's biography. Built with Flutter and SQLite for offline-first experience, implementing bookmarking and advanced search functionality across Islamic content.

Dawawin, <https://play.google.com/store/apps/details?id=com.dawawin.app> ↗

Poetry learning platform showcasing Arabic poems across all literary eras with interactive memorization system. Features word-by-word deletion challenges and progressive testing from individual words to complete verses, helping users memorize poems efficiently using Flutter and Hive.

- **Ios link:**

<https://apps.apple.com/us/app/%D8%AF%D9%88%D8%A7%D9%88%D9%8A%D9%86/id6476870397> ↗

Fast Car Wash App, <https://play.google.com/store/apps/details?id=net.imockup.fastcarwash> ↗

On-demand mobile car wash service connecting customers with professional cleaners at their preferred location. Implements real-time appointment booking, location-based services using Google Maps API, and Firebase push notifications for status updates.

- **Ios link:**

<https://apps.apple.com/us/app/%D8%A7%D9%84%D9%85%D8%BA%D8%B3%D9%84%D8%A9-%D8%A7%D9%84%D9%85%D8%AA%D8%AD%D8%B1%D9%83%D8%A9-%D8%A7%D9%84%D9%80%D8%B1%D8%A7%D8%A6%D8%B9%D8%A9/id1503399711?ls=1> ↗

Palestiny App, <https://play.google.com/store/apps/details?id=com.palestiny.app> ↗

Educational platform promoting Palestinian heritage through ancient history, city guides, and boycott product information. Features interactive knowledge tests about Palestine, multimedia content presentation, and comprehensive historical documentation using Flutter and Provider.

Tashlih App, <https://play.google.com/store/apps/details?id=com.tashlihi.app> ↗

Auto parts marketplace connecting dealers and customers with city-based filtering and store location mapping. Includes in-app messaging for negotiations, special offers management, and detailed spare parts catalog with real-time inventory updates.

- **Ios link:** <https://apps.apple.com/us/app/id1637324630> ↗

Ramky App, <https://play.google.com/store/apps/details?id=com.ramki.app> ↗

E-commerce platform for product browsing, order placement, and delivery tracking with dedicated customer service. Built with Flutter and REST APIs, featuring cart management, order history, and real-time delivery status notifications.

- **Ios link:**

<https://apps.apple.com/us/app/%D8%B1%D8%A7%D9%85%D9%83%D9%80%D9%80%D9%8A/id1643557084> ↗

Haraj Net App, <https://play.google.com/store/apps/details?id=com.haraj.net> ↗

Auction and marketplace platform enabling users to buy, sell, and exchange messages in real-time. Features live auction participation, secure user messaging system, and product listing management with Firebase backend integration.

- **Ios link:** <https://apps.apple.com/us/app/%D8%AD%D8%B1%D8%A7%D8%AC-%D9%86%D8%AA/id1557898081> ↗

Aktashaf Ser Logaty App, <https://play.google.com/store/apps/details?id=com.logaty.app> ↗

Arabic language learning application offering video-based lessons and interactive chat rooms for student-teacher communication. Implements video streaming, real-time messaging, and progress tracking to facilitate effective language education.

Hujuzat (Beta), <https://play.google.com/store/apps/details?id=com.hujuzat.app> ↗

Versatile reservation platform for booking appointments across restaurants, barbershops, and entertainment venues based on geographical location. Built using Clean Architecture and Bloc for scalability, featuring real-time availability checking and multi-business category support.

- Ios link:

<https://apps.apple.com/us/app/%D8%AD%D8%AC%D9%88%D8%B2%D8%A7%D8%AA/id6742800474> ↗

Hujuzat Pro (Beta), <https://play.google.com/store/apps/details?id=com.hujuzatadmin.app> ↗

Business management companion enabling store owners to register establishments, manage working hours, and handle employee details. Features a comprehensive reservation dashboard, analytics for business insights, and seamless integration with the customer-facing Hujuzat app.

- Ios link: <https://apps.apple.com/us/app/%D8%AD%D8%AC%D9%88%D8%B2%D8%A7%D8%AA-%D8%A8%D8%B1%D9%88/id6742800356> ↗

Fekr (Beta), <https://play.google.com/store/apps/details?id=com.fekrapp.app> ↗

An interactive multiplayer trivia game where players challenge friends or random opponents across diverse knowledge categories. Implements Firebase Realtime Database for live gameplay, coin-based reward system, achievement unlocking, and competitive leaderboards.

ManaretGYM (Beta), <https://play.google.com/store/apps/details?id=com.manaret.app> ↗

A fitness management app allowing users to book gym classes, track workout sessions, and communicate with personal trainers. Features class scheduling with capacity management, session history tracking, and a direct messaging system for trainer consultation.

- Ios link: <https://apps.apple.com/us/app/manaretgym/id6744279634> ↗

We. CO (Beta), <https://play.google.com/store/apps/details?id=we.co.app> ↗

Global currency converter providing instant exchange rate calculations with real-time data across multiple currencies worldwide. Features historical exchange rate charts, favorite currency tracking, and offline caching for travelers and traders, built with Flutter and REST API integration for accurate financial data.
